

## Regulator de temperatura - 2 zone

## Temperature Control Unit - 2 zone

### Tip/Type RTD2

#### Caracteristici:

- circuite de control: 2 zone
- tensiunea de alimentare: 230 V
- puterea maxima: 3500 W / zona  
(la cerere disponibile si alte puteri)
- carcasa metalica
- lungimea cablului de alimentare: 2,5 m

#### Standard features:

- number of control circuit: 2 zone
- voltage: 230 V
- max. power: 3500 W / zone  
(other powers available on request)
- metallic case
- cable length: 2,5 m

Nr. / No.
RTD2

## Regulator de temperatura - 4 zone

## Temperature Control Unit - 4 zone

### Tip/Type RTD4

#### Caracteristici:

- circuite de control: 4 zone
- tensiunea de alimentare: 380 V
- puterea maxima: 3500 W / zona  
(la cerere disponibile si alte puteri)
- carcasa metalica
- lungimea cablului de alimentare: 2,5 m

#### Standard features:

- number of control circuit: 4 zone
- voltage: 380 V
- max. power: 3500 W / zone  
(other powers available on request)
- metallic case
- cable length: 2,5 m

Nr. / No.
RTD4
